

Zion Lutheran School of Kearney

ACHIEVEMENT TEST RESULTS

2012- 2013

How does Zion Lutheran School compare to other schools academically? Zion now uses the NWEA MAP assessment to gauge student learning. This test is given in fall, winter, and spring testing sessions and gives the teacher, student, and families immediate feedback on achievement. The MAP assessment has become the assessment of choice for the Lutheran schools of the Nebraska district and is also administered by Kearney Public Schools. This uniformity of testing allows us now to better compare school achievement using classroom averages. This document will illustrate how Zion compares with other Lutheran schools and students nationally.

A Comparison of Averages

Please note:

- 1st/ 2nd graders are only assessed on math and reading
- Due to inadequate sample size, there are no scores displayed for Zion's 6th grade.
- These scores represent a true average of high and low student scores; scores for students with learning disabilities or exceptional abilities are not excluded.

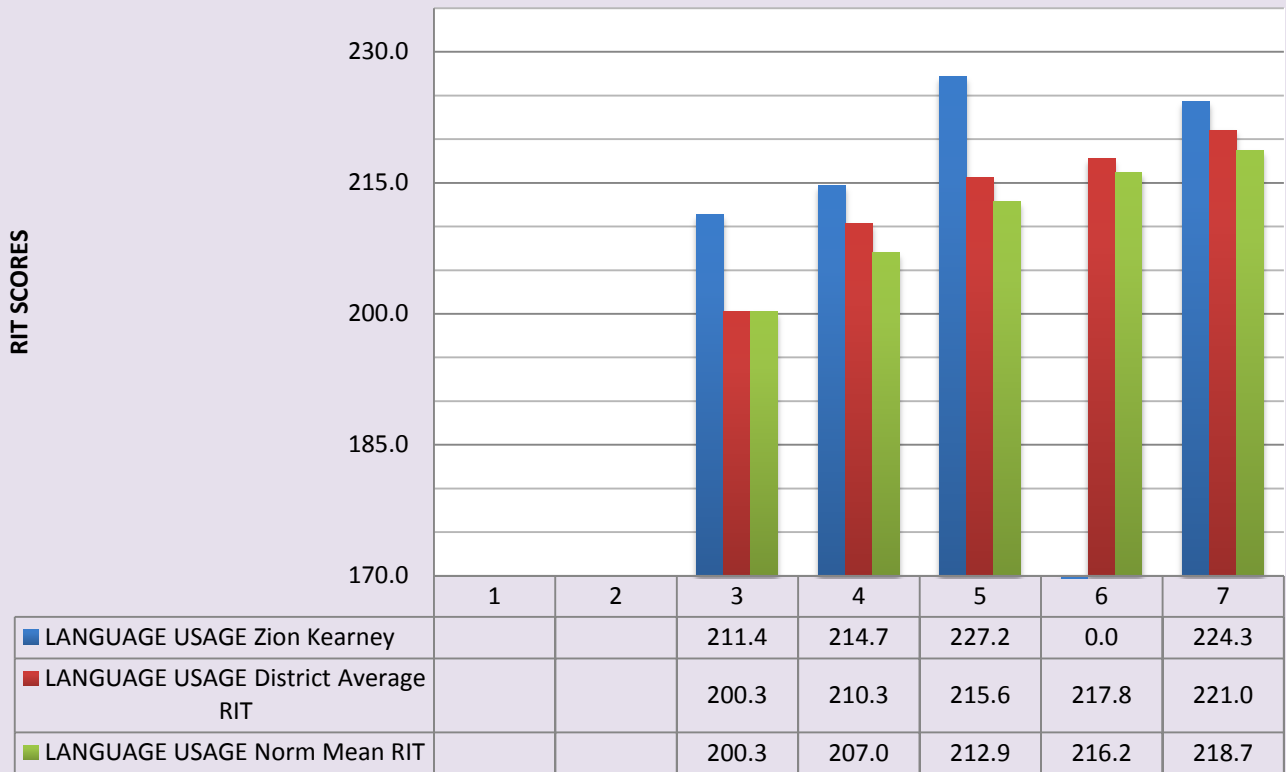

2012-2013 NWEA MAP Results: READING

Zion Kearney vs. Nebraska Dist. vs. Nation

Reading proficiency is a key to future success! This chart, and the others that follow, clearly demonstrate that Zion's curricular changes are paying off! Our school is truly performing at a level above and beyond the competition!
